

Dixie Hack Club

Our Story

Dixie Hack Club is Dixie High School's first computer science club. We started this club to hopefully provide more coding and technological opportunities for Dixie High School students. This is needed because while we do have CS classes offered, we have a lot of room for improvement as far as this subject goes. In fact, we are just now getting a full-time CS teacher next year. This is a step in the right direction, but when there is a predicted 1.4 million computer-science-related jobs available in 2020, we should be doing a lot more to provide a good CS program for students. That's why we need Dixie Hack Club.

Dixie Hack Club is a branch of Hack Club which is a nonprofit network of high school coding clubs and makers around the world. The goal of Hack Club is to help students become a 'hacker'. We want a space at every school where people are making interesting things with code, every week. Most schools don't provide that, so we're creating it in every school to make building things accessible to everyone. We don't just want to provide students lessons on coding, but tons of free resources as well as a community of like-minded students. Everyone is welcome to join no matter what their level of experience is, as long as they have an interest in computer science.

Sponsors

You can help us achieve the full potential of this club. We need:

- **Money.** A direct donation can help fund our workshops and events we host.
- **Resources.** Any of your company's tools or products that can help participants with their projects and learning. This includes tools for design, development, infrastructure, domains, version control, project management, etc.
- **People.** Industry professionals can provide invaluable insights to students, whether it be through speakers that visit our classroom, workshop hosts, or mentors.

In return, you'll get the opportunity to influence the next generation of computer scientists, enabling you to market your brand, expand your recruitment, or test out your product.

If you wish to help, contact us at dixiehackclub@gmail.com or hirschi.savannah@gmail.com and we can set up a meeting.
